RWS ONE:

Training Class Offerings

Module 5: ESL and Aseptic Technical and Operational Training

Location: RWS ONE; Roscoe, IL

Duration: 2 1/2 days

Objective: The objective of this course is to cover the fundamentals of ESL and aseptic production along with the varied types, important design criteria of each, and special regulatory focuses for the technologies utilized for that production. UHT's, sterile tanks, isolation barriers, and selected filing systems

Content:

- **Fundamentals of ESL and Aseptic production**
- **UHT's**
- **Sterile tanks**
- **Isolation Barriers**
- **Selected filling systems**
- **Fundamentals of cleaning, sterilizing, and maintaining sterility in these same systems**
- **Fundamentals of investigating post process infection failures**
